## SUMMARY

Computer Science undergraduate with hands-on experience in Node.js and modern JavaScript frameworks. Developed full-stack projects including *Wanderlust* (MERN stack), and eager to contribute to building scalable and impactful web applications.

## SKILLS

- ❖ **Web development:** HTML, CSS, Javascript, Flask, MongoDB, Express, React, Node.js, Tailwind CSS, Bootstrap.
- ❖ **Programming Languages:** C/C++, Python, Java, SQL
- ❖ **Tools:** Git, GitHub (version control), REST APIs, Redux, Tableau
- ❖ **AI/ML:** Machine Learning, Artificial Intelligence, AI model integration

## EDUCATION

- ❖ Computer Engineering | Bhilai Institute of Technology, Durg, CG.    *CGPA: 9.16 | 2026*
- ❖ XII (CBSE) | S.E.C.Rly. H/S English Medium School, Bilaspur, CG.    *80.00%| 2021*

## PROJECTS

- ❖ **Personal Portfolio (React, Next.js, Tailwind) | [GitHub](#) | [Live](#)**        *Jul 2025*
  - Portfolio site built using React, Next.js, Tailwind CSS and Framer Motion.
  - Key features: Dynamic project display, Interactive chatbot, Auto enabled Dark Mode.

- ❖ **WanderLust (MERN + EJS) | [GitHub](#) | [Live](#)**        *Jun 2025*
  - Built a full-stack Airbnb clone with secure authentication and MapTiler integration for dynamic maps.

- ❖ **Student Feedback System (Flask & SQL) | [GitHub](#)**        *Oct 2023*
  - Digital feedback platform streamlining data collection.
  - Features: Students can submit feedback, professors can view their ratings.

## EXPERIENCE

- ❖ **Vocational Training | S.E.C. Railways**        *June 2025*
  - Gained valuable insights of Unreserve Ticketing System, Passenger Reservation System, Integrated Passenger Information System etc.

## ACHIEVEMENTS

- ❖ Secured 1st position in Blind Coding Competition at BIT, Durg.
- ❖ Awarded for best use of Voiceflow API at Hack The Space 2.0 Hackathon

## RECENT COURSES

- ❖ Artificial Intelligence Fundamentals by IBM.        *Jun 2024*
- ❖ CS50: Introduction to Computer Science by Harvard University.        *Dec 2023*
